PricewaterhouseCoopers
1 N Upper Wacker Dr.
Chicago, IL 60606

Dear Hiring Manager:

I am writing to share my strong interest in working for PwC in the open position of Front End Developer. As a recent Bootcamp graduate, I have passion to spare and desire to prove myself. If you are seeking a motivated and driven employee - *with a love of Test Driven Development and beautiful, scalable code!* – I urge you to consider my application. I know the value of building a strong team of supportive and passionate individuals. From all I have heard, I know I would find just such individuals at PwC.

At Actualize Coding Bootcamp, I worked hard to gain command of Ruby, JavaScript, Rails, React.js, Vue.js, as well as HTML5 and CSS3 principles and practices. Using these languages and frameworks, and integrating multiple API's, I set out to create an Analytics app focused on financial planning and budgeting for travelers. In addition to these specific languages, Actualize taught me how to *learn* by diving headfirst into new languages and technologies, breaking down complex technological problems into small, simple steps, and asking the right questions. I am ready to hit the ground running!

In my previous career as an events manger, I was afforded continual opportunity to hone many translatable skills, most notably my managerial and logistical problem-solving skills. I've led and produced numerous high-profile events ranging from large black-tie galas, to intimate donor cultivation events, to multi-day donor amenities at international conventions. I managed large teams of staff, vendors, and volunteers, both on-site and remotely, while adhering to strict budgets and deliverable timelines. As successfully as each project I've managed has run, I am always striving to improve upon my process and grow as both a leader and teammate. If hired, I will bring this ethos to my work as a Front End Developer.

Thank you for your consideration! I'd love a chance to learn more about this position and demonstrate how I can help PwC reach organizational goals. I can be reached at (630) 217-7563 or Evans.Katherine.E@gmail.com if you need any additional information.

Regards,

Katherine Evans

BACHELOR OF SCIENCE
Arts Management
Indiana University
2008 – 2012

PROFESSIONAL PROFILE

A full-stack web developer who loves building and contributing to web applications that tackle real world problems. Thrives in an agile work environment, managing multiple timelines and deadlines on varying development projects and cross-organizational, internal, and external teams. An experienced events and fundraising development professional with an extensive background as both a project manager and a team manager leading large, revenue-generating special events and campaigns to fruition.

EXPERIENCE

FULL-STACK WEB DEVELOPER
Actualize, Chicago, Illinois / 2018 - Present

- **Travel Wallet:** Built an app that allows a user to track expenses and upload itineraries for future trips. Utilizing Twilio's API text feature in conjuncture with Chart.js, this app helps users better track and manage personal and group travel expenses, and accurately budget for upcoming travel. The front-end is constructed in Vue.js and the back-end is constructed in Rails.
- **Intensive Coding Bootcamp:** Completed intensive, three month Actualize bootcamp, where I learned and utilized Ruby, Rails, JavaScript, VueJS, among many other languages and frameworks. Learned to think as a software engineer, while developing the ability to tackle any new technology – and a healthy respect for TDD and beautiful, scalable code.

DONOR EVENTS PLANNER
Rotary International, Evanston, Illinois / 2016 – 2018

- Operational leader, managing logistics and participant experience for multiple donor events, donor amenities, and recognition ceremonies throughout the year, including: program development, registration process, space allocation and design, banqueting services, technology, and transportation.
- Successfully executed five Major Donor recognition events in under nine months with over 2,300 high profile, international donors in attendance, representing a 100% growth from the previous year's attendance figures.
- Sourced and negotiated proposals and contracts with current and prospective vendors.
- Tracked registration, budgets, and analytics using Cvent, Raiser's Edge, Business Intelligence (BI), netForum, and HighRoad Solution email marketing software.

SPECIAL EVENTS ASSOCIATE
Les Turner ALS Foundation, Skokie, Illinois / 2015 –2016

- Conceptualized, planned and collaboratively executed signature special events and Associate Board events.
- Established and managed "Team Race for ALS", the peer to peer fundraising platform, which operated at 20% above the year's projected fundraising goal.
- Increased volunteer fundraiser retention by 13% on the Associate Board and 8% on peer to peer fundraising teams by spearheading new incentives program.
