Indiana University
2008 – 2012

PROFESSIONAL PROFILE

A full-stack web developer who loves building and contributing to web applications that tackle real world problems. Thrives in an agile work environment, managing multiple timelines and deadlines on varying development projects and cross-organizational, internal, and external teams. An experienced events and fundraising development professional with an extensive background as both a project manager and a team manager leading large, revenue-generating special events and campaigns to fruition.

EXPERIENCE

FULL-STACK WEB DEVELOPER
Actualize, Chicago, Illinois / 2018 - Present

- **Travel Wallet:** Built an app that allows a user to track expenses and upload itineraries for future trips. Utilizing Twilio's API text feature in conjuncture with Chart.js, this app helps users better track and manage personal and group travel expenses, and accurately budget for upcoming travel. The front-end is constructed in Vue.js and the back-end is constructed in Rails.
- **Intensive Coding Bootcamp:** Completed intensive, three month Actualize bootcamp, where I learned and utilized Ruby, Rails, JavaScript, VueJS, among many other languages and frameworks. Learned to think as a software engineer, while developing the ability to tackle any new technology – and a healthy respect for TDD and beautiful, scalable code.

DONOR EVENTS PLANNER
Rotary International, Evanston, Illinois / 2016 – 2018

- Operational leader, managing logistics and participant experience for multiple donor events, donor amenities, and recognition ceremonies throughout the year, including: program development, registration process, space allocation and design, banqueting services, technology, and transportation.
- Successfully executed five Major Donor recognition events in under nine months with over 2,300 high profile, international donors in attendance, representing a 100% growth from the previous year's attendance figures.
- Sourced and negotiated proposals and contracts with current and prospective vendors.
- Tracked registration, budgets, and analytics using Cvent, Raiser's Edge, Business Intelligence (BI), netForum, and HighRoad Solution email marketing software.

SPECIAL EVENTS ASSOCIATE
Les Turner ALS Foundation, Skokie, Illinois / 2015 –2016

- Conceptualized, planned and collaboratively executed signature special events and Associate Board events.
- Established and managed "Team Race for ALS", the peer to peer fundraising platform, which operated at 20% above the year's projected fundraising goal.
- Increased volunteer fundraiser retention by 13% on the Associate Board and 8% on peer to peer fundraising teams by spearheading new incentives program.
